

# Lakie's Weekly Grade 6 Level Task List

Hey Gators, please find your tasks to be completed this week.

Week of: May 20-22, 2020

## Language Arts:

Please complete ONE journal entry this week. See the ASSIGNMENT in TEAMS for more details.

Please read through the content in the Poetry Part A PowerPoint (found in the Week 8 Poetry Assignment on Teams). Make sure you click any links to access the associated videos. I hope you enjoy all the great poems I have curated for you! There is nothing that needs to be submitted for this assignment, but be prepared to write some more amazing poetry next week!

Read for at least 10 minutes daily, please!

Optional: I completed the read-aloud of the novel, *Among the Hidden*. All the YouTube links are posted on TEAMS. The videos will be up until June 30th - I would love for you to listen and enjoy the story!

## Social Studies:

Hope you all enjoyed your long weekend. This is a short week, so we are going to wrap up the Athens Unit with our final quiz! Thank you to all who participated in our Athens Day Toga Zoom. It was so fun!

Take **Wednesday to review** the two booklets from this unit as well as review the two check-in quizzes. On **Thursday** we will post a **Unit quiz** that will stay **open until Sunday, May 24 at Midnight**. Take your time and do your best.

As always, if you have any questions please do not hesitate to contact Mrs. Adamson and/or Mrs. Wehlage.

## Math:

The Patterns Unit is finished and this week you will complete the Unit Test. You will find the test under ASSIGNMENTS and please make sure to press submit when your test is done. You are welcome to use your notes from any of the lessons to help you if you need it.

Also, as you have seen, we have been posting a "Mental Math" video on TEAMS each day for you to check out - these are basic questions to try to help keep your brain sharp!

# Lakie's Weekly Grade 6 Level Task List

Hey Gators, please find your tasks to be completed this week.

## Science:

This week you will learn about Bernoulli's Principal.

1. Open PowerPoint (in **FILES**) and student notes (in **ASSIGNMENTS**).
2. Follow the PowerPoint and your student notes to complete the notes. You will learn about what Bernoulli's Principal is and make a few predictions from experiments.
3. Complete the Checking Understanding (you can use your notes)

<https://forms.office.com/Pages/ResponsePage.aspx?id=Y4sOPE7mjUykDx0h02cEcggWkHoBtJdCh0p0JoXfxIIUQVEyOTQyWkg0MTQ1V0g4Tik0R09LUlhXRC4u>

4. An answer key will be posted on Friday.

## Additional Activities:

Please remember to check out your **Enrichment Activities** and **Lakie PE** classes on Teams for more amazing learning!

## Wellness:

## Lakie's Weekly Grade 6 Level Task List

Hey Gators, please find your tasks to be completed this week.

Week of: May 20-22, 2020

### ZOOM Meeting Schedule

We love being able to connect with you via zoom! This week is PJ DAY! See the attached poster for more information.

**6A** - Thursday, May 21<sup>st</sup> @ 10:30

**6B** - Thursday, May 21<sup>st</sup> @ 11:00

**6C** - Thursday, May 21<sup>st</sup> @ 1:00

**6D** - Thursday, May 21<sup>st</sup> @ 1:30

The link will be posted on the SCIENCE discussion board when your meeting time is schedule for.

## It's Pajama Day!

Come to your class zoom on Thursday in your pajamas and be entered in for a prize.

*Slept in on Thursday? Just woke up and it's minutes before your class zoom? PERFECT!*
