

Lakie's Weekly Grade 6 Level Task List

Hey Gators, please find your tasks to be completed this week.

Week of: June 1-5, 2020

Language Arts:

Please complete ONE journal entry this week. Respond to the following prompt: With only 3 weeks left of online schooling, how are you feeling about the transition to summer break? Will you miss your schooling? What do you think your summer activities will consist of? See the ASSIGNMENT in TEAMS for more details.

It's time to write paragraphs! Go through the Paragraphs PowerPoint. Complete the planning activity on slides 12-24. Type a copy of your current 5 sentence paragraph and submit it in the assignment on Teams. Keep a copy of this paragraph as we will work on expanding and improving it next week!

Read for at least 10 minutes daily, please!

Optional: I completed the read-aloud of the novel, *Among the Hidden*. All the YouTube links are posted on TEAMS. The videos will be up until June 30th - I would love for you to listen and enjoy the story!

Social Studies:

This week we will continue learning and reviewing about the Iroquois culture and decision-making processes. On **Monday** you will have a quiz that checks-in on your knowledge from Part 1. All patterns MUST complete the quiz. Finish the quiz in one sitting and don't forget to hit SUBMIT at the end of it!

On **Tuesday** the new booklet will be posted. Make sure you read your individual assignments carefully. There will be readings and videos to help you learn.

Answer Keys for booklets will be posted on **Friday, June 5**
Quiz on Part 2-Iroquois will be on **Monday, June 8**
(all patterns are required to complete the quiz)

Math:

This week you will work through three lessons on Simplifying Fractions. This concept will be a review for some of you and new for others. It is a very important skill moving forward when working with fractions.

1. Under ASSIGNMENTS you will find one PowerPoint (examples from all three lessons) as well as the video links and the THREE worksheets for this week.
2. Complete the "Checking Understanding Week 10" once you have finished the worksheets.

From now on, each week you will be working on a different topic to complete your grade 6 math. Also, take a few minutes to check out the Mental Math that is posted each day.

Hey Gators, please find your tasks to be completed this week.

Science:

This week you will learn about propulsion, floaters, gliders, and powered flyers!

1. Open PowerPoint (in **FILES**) and student notes (in **ASSIGNMENTS**).
2. Follow the PowerPoint and your student notes to complete the notes.
3. Read about the difference in birds and insects in flight! There are some videos that you should watch (especially the last one about Flightless Birds).
4. Complete the Check In after finishing the notes, readings, and videos.
