

# Lakie's Weekly Grade 6 Level Task List

Hey Gators, please find your tasks to be completed this week.

Week of: June 8-12, 2020

## Language Arts:

This week will be your last journal entry! Respond to the following prompt:  
How has the weekly journal writing activity gone for you in the last 10 weeks?  
Is journaling something you will continue? Will you keep your journal to reflect back on in future years? (I hope so!) I'd love to hear both positive and constructive feedback! See the ASSIGNMENT in TEAMS for more details.

It's time to improve your paragraphs! Following the instructions in the Paragraphs PowerPoint, you will add evidence and detail to your existing paragraph. You will also work to include transition words and phrases to help connect your ideas and create fluency in your writing. Submit your final paragraph in the assignment on Teams.

Read for at least 10 minutes daily, please!

Optional: I completed the read-aloud of the novel, *Among the Hidden*. All the YouTube links are posted on TEAMS. The videos will be up until June 30th - I would love for you to listen

## Social Studies:

This week ends our Iroquois unit. On Monday you will write a short check-in quiz about your Booklet: Part 2. The rest of the week will be yours to review the two booklets. A review sheet will also be provided for you. Next Monday, June 15, you will have your final Iroquois unit quiz!

If there is something that you're not understanding or need clarification on please send a chat to Mrs. Wehlage or Mrs. Adamson. We're here to help you.

## Math:

This week you will work through three lessons on Mixed Numbers and Improper Fractions. This concept will be a review for some of you and new for others. You will also focus on making sure the fractions are in lowest terms!

1. Under ASSIGNMENTS you will find one powerpoint (examples from all three lessons) as well as the video links and the THREE worksheets for this week.
2. Complete the "Checking Understanding Week 11" once you have finished the worksheets.

Our focus in Math for the last couple of weeks is to complete some review of key concepts to know for Grade 7, so even if it is familiar please complete the lessons and the checking understanding. Also, take a few minutes to check out the Mental Math that is posted each day.

## Lakie's Weekly Grade 6 Level Task List

Hey Gators, please find your tasks to be completed this week.

### Science:

This week you will learn about hot air balloons and parts of an airplane.

1. Open PowerPoint (in **FILES**) and student notes (in **ASSIGNMENTS**).
2. Follow the PowerPoint and your student notes to complete the notes and activities.
3. Complete the Check In after finishing the notes. There are only five questions this week 😊
